Subject: Question on AG referrals

Hey Kelli, hope you had a happy holiday season and are staying warm up there. If not, a little IA petition might warm you up. I was wondering if you could tell me how many CAFO cases were referred to AG but were rejected by the EPC since workplan was signed. I seem to recall having a conversation about the number of referrals to AG but couldn't remember if we talked about the number that were rejected by the EPC.

Thanks,

Stephen Pollard
